WILLOUGHBY-EASTLAKE SCHOOL OF PRACTICAL NURSING

ADULT DIVISION

HISTORY

The Willoughby-Eastlake School of Practical Nursing adult program opened its doors September 1962; to educate those interested in becoming practical nurses, and to help relieve the nurse shortage. The program has grown and developed to accommodate society growth and advancement of technology. Since then, there have been over 100 graduating classes.

In 1964, the Willoughby-Eastlake School City School District started a high school practical nursing program at the request of the Board of Education. This also assisted the growing community meet the need for health care providers.

Both the high school and adult programs are 900 hours in length. The first semester is mainly basic nursing theory and the introduction to patient care with hands-on experience. The second semester is devoted to hospital and patient experience, the instruction in medical-surgical nursing and advanced specialty areas.

Upon graduation from the high school and the adult program, the graduate is eligible to take the NCLEX Examination to be licensed as a Practical Nurse.

Willoughby-Eastlake has been dedicated throughout the years to educate nurses and to provide excellence in nursing at both the bedside and in the preventative health care settings under the auspices of a registered nurse, doctor, dentist or podiatrist. Our graduates have been successfully employed in hospitals, home health care, clinics, doctors' offices, private duty, nursing homes, prisons, and military. Many continue their education and become a registered nurse.

WILLOUGHBY-EASTLAKE SCHOOL OF PRACTICAL NURSING

PHILOSOPHY

The faculty believes that nursing education is a deliberate process of learning by the student interested in providing nursing care to others. In order to facilitate this learning process, we build our curriculum on these concepts:

WE BELIEVE.....

- **the person** is a holistic being who is an individual, a member of a family, a member of a local, regional, and world community. Each person possesses individual, physical, emotional, social, economic, and spiritual self-care requisites. Either self-care agency, dependent-care agency, or nursing-care agency can meet these self-care requisites.
- **health** exists when the person has the ability to meet self-care requisites that contribute to the maintenance and promotion of structural and/or emotional integrity, functioning, and development. **Illness** occurs when an individual is incapable of maintaining self-care as a result of health-related limitations.
- **society/environment** includes all internal and external factors which effect the person's ability to adjust or maintain self-care agency or meet self-care needs.
- **nursing** is a service of deliberately selected and performed actions to assist individuals to maintain self-care, including structural integrity, functioning, and development. These actions should be based on the organized approach of nursing process which includes the following:
 - collect and record objective and subjective data to facilitate the assessment of
 - the individual/patient in terms of self-care, development and health deviation requisites
 - identifying problems specific to the individual/patient and their unmet health care requisites
 - using a cooperative effort with the individual/patient to establish goals
 - establish a plan of care using appropriate members of the health care team and the individual/patient
 - implement the plan
 - evaluate and revise the plan of care as necessary
- **nursing education** is the process by which the nursing instructor facilitates the student's psychomotor, cognitive, and affective skills to attain an entry level of nursing knowledge and competency. Entry level practical nursing skills are learned through the use of integrated Technical and Academic Competencies.

Program Curriculum - The core of knowledge obtained in this curriculum is viewed as a basis for beginning practice in the nursing field. It is stressed to the student that as a member of a very dynamic profession, accountability for current knowledge is ever present. A continuous process of learning is emphasized because of constant changes within the study of the science of nursing.

It is advisable that students are covered by individual hospital health insurance.

In the event you have an accident or injury at home, at a clinical site, at school, or while traveling to or from school, and are sent to the Emergency Room, you are to report this to the school in writing, giving a detailed explanation of the incident. Injuries incurred are to be reported to the instructor who will insure that a written report is sent to the school and the nursing supervisor. The student will be responsible for all liabilities. Both the school and affiliating agency are free of all liabilities.

Illnesses, injuries, and pregnancies are to be reported to the school in writing. Pregnant women must have written medical clearance to perform in the clinical setting with no limitations.

Emergency health care is available at the hospital, if necessary. However, this emergency cost and subsequent follow-up care through a private physician is at the student's expense.

When a student is treated by any physician, the student is to bring a statement from that physician as to the, limitation, and/or permission to return to duty.

Any health situation which could influence the effectiveness of the student must be brought to the attention of the faculty, i.e., diabetes, resistant infections, use of medications that affect judgment, etc. for the continuing welfare of the student, patient, and the school.

It is the student's responsibility to notify the school secretary and clinical instructor of any change in the student's legal name, address, and/or phone number.

CONDUCT – STUDENT

Students are beginning professionals. Students begin to learn about the expectations of professional behavior from the first day of enrollment. One of the characteristics of a profession is the use of a code of conduct to guide decisions about behavior. A set of guidelines is useful because they make values, obligations, and limitations explicit. The guidelines can help with decision making but will not provide answers to all complex decisions. Students are encouraged to discuss questions and concerns about conduct with instructors and peers. It is believed that the practice of nursing and the education of future nurses will be built upon integrity, a sense of responsibility, and self-discipline. Nurses are accountable for practicing within the framework of professional nursing standards (American Nurses Association, Scope and Standards of Professional Practice). It is a corollary that nursing students are expected to conduct themselves, both inside and outside of the School of Nursing, in a comparable fashion.

CIVILITY IS BEHAVIOR THAT: 1) shows respect towards others, 2) causes another to feel valued, and 3) contributes to mutual respect, effective communication and team collaboration. Our primary

commitment is to learn from the instructors, from each other, from the materials and from our work. We acknowledge differences amongst us in values, interests and experiences. We will assume that people are always doing the best they can, both to learn the material and to behave in socially productive ways. By sharing our views openly, listening respectfully, and responding critically to ideas, we will all learn.

Most students exhibit appropriate behavior in class, but sometimes there is disagreement over the definition of “appropriate” behavior. Learning is a group activity, and the behavior of each person in class in some way or the other affects the learning outcomes of others. If we keep these thoughts in mind, the classroom experience will be a better one for everyone involved.

It is expected that all practical nursing students interact with each other, faculty, clients, staff and community based preceptors in a professional manner. Students are expected to demonstrate professional values such as:

- Assuming personal responsibility and being a conscientious student
- Interacting with peers, faculty, clients, staff and community based preceptors with courtesy and respect
- Work with peers and faculty in providing safe effective care
- Exhibiting a high standard of moral and ethical behavior

In an immediate removal, a student can be kept from the classroom, clinical and/or school premises/clinical site until the matter of the misconduct is disposed of either by reinstatement or dismissal. Time missed due to an immediate removal will not count against a student's attendance.

5517 - ANTI-HARASSMENT

General Policy Statement

It is the policy of the Board of Education to maintain an education and work environment that is free from all forms of unlawful harassment, including sexual harassment. This commitment applies to all School

District operations, programs, and activities. All students, administrators, teachers, staff, and all other school personnel share responsibility for avoiding, discouraging, and reporting any form of unlawful harassment. This policy applies to unlawful conduct occurring on school property, or at another location if such conduct occurs during an activity sponsored by the Board.

The Board will vigorously enforce its prohibition against discriminatory harassment based on race, color, national origin, sex (including sexual orientation and gender identity), disability, age (except as authorized by law), religion, ancestry, or genetic information (collectively, "Protected Classes") that are protected by Federal civil rights laws (hereinafter referred to as unlawful harassment), and encourages those within the School District community as well as Third Parties, who feel aggrieved to seek assistance to rectify such problems. The Board will investigate all allegations of unlawful harassment and in those cases where unlawful harassment is substantiated, the Board will take immediate steps to end the harassment, prevent its reoccurrence, and remedy its effects. Individuals who are found to have engaged in unlawful harassment will be subject to appropriate disciplinary action.

The District will offer counseling services to any person found to have been subjected to unlawful harassment, and, where appropriate, the person(s) who committed the unlawful harassment.

Other Violations of the Anti-Harassment Policy

The Board will also take immediate steps to impose disciplinary action on individuals engaging in any of the following prohibited acts:

- A. Retaliating against a person who has made a report or filed a complaint alleging unlawful harassment, or who has participated as a witness in a harassment investigation.
- B. Filing a malicious or knowingly false report or complaint of unlawful harassment.
- C. Disregarding, failing to investigate adequately, or delaying investigation of allegations of unlawful harassment, when responsibility for reporting and/or investigating harassment charges comprises part of one's supervisory duties.

Definitions

Words used in this policy shall have those meanings defined herein; words not defined herein shall be construed according to their plain and ordinary meanings.

It is defined as any unwanted and repeated written, verbal, or physical behavior, including any threatening, insulting, or dehumanizing gesture, by an adult or student, that is severe or pervasive enough to create an intimidating, hostile, or offensive educational or work environment; cause discomfort or humiliation; or unreasonably interfere with the individual's school or work performance or participation; and may involve:

- A. teasing;
- B. threats;
- C. intimidation;
- D. stalking;
- E. cyberstalking;
- F. cyberbullying;
- G. physical violence;
- H. theft;
- I. sexual, religious, or racial harassment;
- J. public humiliation; or
- K. destruction of property.

Harassment

Harassment means any threatening, insulting, or dehumanizing gesture, use of technology, or written, verbal or physical conduct directed against a student or school employee that:

- A. places a student or school employee in reasonable fear of harm to his/her person or damage to his/her property;
- B. has the effect of substantially interfering with a student's educational performance, opportunities, or benefits, or an employee's work performance; or
- C. has the effect of substantially disrupting the orderly operation of a school.

Sexual Harassment

For purposes of this policy and consistent with Title VII of the Civil Rights Act of 1964, "sexual harassment" is defined as:

Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature, when:

- A. Submission to such conduct is made either implicitly or explicitly a term or condition of an individual's employment, or status in a class, educational program, or activity.
- B. Submission or rejection of such conduct by an individual is used as the basis for employment or educational decisions affecting such individual.
- C. Such conduct has the purpose or effect of interfering with the individual's work or educational performance; of creating an intimidating, hostile, or offensive working, and/or learning environment; or of interfering with one's ability to participate in or benefit from a class or an educational program or activity.

Sexual harassment may involve the behavior of a person of any gender against a person of the same or another gender.

Sexual Harassment covered by Policy 2266 - Nondiscrimination on the Basis of Sex Education Programs or Activities is not included in this policy. Allegations of such conduct shall be addressed solely by Policy 2266.

Prohibited acts that constitute sexual harassment under this policy may take a variety of forms. Examples of the kinds of conduct that may constitute sexual harassment include, but are not limited to:

- A. Unwelcome sexual propositions, invitations, solicitations, and flirtations.
- B. Unwanted physical and/or sexual contact.
- C. Threats or insinuations that a person's employment, wages, academic grade, promotion, classroom work or assignments, academic status, participation in athletics or extra-curricular programs, activities, or events, or other conditions of employment or education may be adversely affected by not submitting to sexual advances.
- D. Unwelcome verbal expressions of a sexual nature, including graphic sexual commentaries about a person's body, dress, appearance, or sexual activities; the unwelcome use of sexually degrading language, profanity, jokes or innuendoes; unwelcome suggestive or insulting sounds or whistles; obscene telephone calls.

- H. Speculations about a person's sexual activities or sexual history, or remarks about one's own sexual activities or sexual history.

- I. Giving unwelcome personal gifts such as lingerie that suggests the desire for a romantic relationship.
- J. Leering or staring at someone in a sexual way, such as staring at a person's breasts, buttocks, or groin.
- K. A pattern of conduct, which can be subtle in nature, that has sexual overtones and is intended to create or has the effect of creating discomfort and/or humiliation to another.
- L. Inappropriate boundary invasions by a District employee or other adult member of the School District community into a student's personal space and personal life.
- M. Verbal, nonverbal or physical aggression, intimidation, or hostility based on sex or sex-stereotyping that does not involve conduct of a sexual nature.

Not all behavior with sexual connotations constitutes unlawful sexual harassment. Sex-based or gender-based conduct must be sufficiently severe, pervasive, and persistent such that it adversely affects, limits, or denies an individual's employment or education, or such that it creates a hostile or abusive employment or educational environment, or such that it is intended to, or has the effect of, denying or limiting a student's ability to participate in or benefit from the educational program or activities.

Race/Color Harassment

Prohibited racial harassment occurs when unwelcome physical, verbal, or nonverbal conduct is based upon an individual's race or color and when the conduct has the purpose or effect of interfering with the individual's work or educational performance; of creating an intimidating, hostile, or offensive working, and/or learning environment; or of interfering with one's ability to participate in or benefit from a class or an educational program or activity. Such harassment may occur where conduct is directed at the characteristics of a person's race or color, such as racial slurs, nicknames implying stereotypes, epithets, and/or negative references relative to racial customs.

Religious (Creed) Harassment

Prohibited religious harassment occurs when unwelcome physical, verbal, or nonverbal conduct is based upon an individual's religion or creed and when the conduct has the purpose or effect of interfering with the individual's work or educational performance; of creating an intimidating, hostile, or offensive working and/or learning environment; or of interfering with one's ability to participate in or benefit from a class or an educational program or activity. Such harassment may occur where conduct is directed at the characteristics of a person's disability, such as negative comments about speech patterns, movement, physical impairments or defects/appearances, or the like.

Anti-Harassment Compliance Officers

The following individual(s) shall serve as the District's Anti-Harassment Compliance Officer(s) (hereinafter, "the Compliance Officer(s)"):

Assistant Superintendent
35353 Curtis Blvd.
Eastlake, Ohio 44095
440-946-5000

Director of Pupil Services
35353 Curtis Blvd.
Eastlake, Ohio 44095
440-946-5000

The names, titles, and contact information of these individuals will be published annually on the School District's website.

The Compliance Officer(s) are responsible for coordinating the District's efforts to comply with applicable Federal and State laws and regulations, including the District's duty to address in a prompt and equitable manner any inquiries or complaints regarding harassment.

The Compliance Officer(s) will be available during regular school/work hours to discuss concerns related to unlawful harassment, to assist students, other members of the District community, and third parties who seek support or advice when informing another individual about "unwelcome" conduct, or to intercede informally on behalf of the individual in those instances where concerns have not resulted in the filing of a formal complaint and where all parties are in agreement to participate in an informal process.

Compliance Officers shall accept reports of unlawful harassment directly from any member of the School District community or a Third Party or receive reports that are initially filed with an administrator, supervisor, or other District-level official. Upon receipt of a report of alleged harassment, the Compliance Officer(s) will contact the Complainant and begin either an informal or formal complaint process (depending on the request of the Complainant or the nature of the alleged harassment), or the Compliance Officer(s) will designate a specific individual to conduct such a process. The Compliance Officer(s) will provide a copy of this policy to the Complainant and Respondent. In the case of a formal complaint, the Compliance Officer(s) will prepare recommendations for the Superintendent or will oversee the preparation of such recommendations by a designee. All Board employees must report incidents of harassment that are reported to them to the Compliance Officer within two (2) days of learning of the incident.

Any Board employee who directly observes unlawful harassment is obligated, in accordance with this policy, to report such observations to the Compliance Officer(s) within two (2) days. Additionally, any Board employee who observes an act of unlawful harassment is expected to intervene to stop the harassment, unless circumstances make such an intervention dangerous, in which case the staff member should immediately notify other Board employees and/or local law enforcement officials, as necessary, to stop the harassment. Thereafter, the Compliance Officer(s) or designee must contact the Complainant, if age eighteen (18) or older, or Complainant's parents/guardians if the Complainant is under the age eighteen (18), within two (2) days to advise of the Board's intent to investigate the alleged wrongdoing.

Reports and Complaints of Harassing Conduct

Students and all other members of the School District community along with Third Parties are required to report incidents of harassing conduct to a teacher, administrator, supervisor, or other District official so that the Board may address the conduct before it becomes severe, pervasive, or persistent. Any teacher, administrator, supervisor, or other District employee or official who receives such a report shall file it with the Compliance Officer within two (2) days of receiving the report of harassment.

Members of the School District community and Third Parties, which includes students, or third parties who believe they have been unlawfully harassed are entitled to utilize the Board's complaint process that is set forth below. Initiating a complaint, whether formally or informally, will not adversely affect the Complainant's employment or participation in educational or extra-curricular programs. While there are no time limits for initiating complaints of harassment under this policy, individuals should make every effort to file a complaint as soon as possible after the conduct occurs while the facts are known and potential witnesses are available.

If, during an investigation of alleged bullying, aggressive behavior and/or harassment in accordance with Policy 5517.01 - Bullying and Other Forms of Aggressive Behavior, the Principal believes that the reported misconduct may have created a hostile work environment and may have constituted unlawful discriminatory harassment based on a Protected Class, the Principal shall report the act of bullying, aggressive behavior and/or harassment to the Compliance Officers who shall investigate the allegation in accordance with this policy. If the alleged harassment involves Sexual Harassment as defined by Policy 2266, the matter will be handled in accordance with the grievance process and procedures outlined in Policy 2266. While the Compliance Officer investigates the allegation, or the matter is being addressed pursuant to Policy 2266, the Principal shall suspend the Policy 5517.01 investigation to await the Compliance Officer's written report or the determination of responsibility pursuant to Policy 2266. The Compliance Officer shall keep the Principal informed of the status of the Policy 5517 investigation and provide the Principal with a copy of the resulting written report. Likewise, the Title IX Coordinator will provide the Principal with the determination of responsibility that results from the Policy 2266 grievance process.

Investigation and Complaint Procedure

Except for Sexual Harassment that is covered by Policy 2266 - Nondiscrimination on the Basis of Sex in Education Programs or Activities, any student who believes that they have been subjected to unlawful harassment may seek resolution of the complaint through the procedures described below. The formal complaint process involves an investigation of the Complainant's claims of harassment or retaliation and a process for rendering a decision regarding whether the charges are substantiated.

Due to the sensitivity surrounding complaints of unlawful harassment or retaliation, timelines are flexible for initiating the complaint process; however, individuals should make every effort to file a complaint within thirty (30) days after the conduct occurs while the facts are known and potential witnesses are

available. Once the formal complaint process is begun, the investigation will be completed in a timely manner (ordinarily, within fifteen (15) business days of the complaint being received).

The procedures set forth below are not intended to interfere with the rights of a student to pursue a complaint of unlawful harassment or retaliation with the United States Department of Education Office for Civil Rights.

Informal Complaint Procedure

The goal of the informal complaint procedure is promptly to stop inappropriate behavior and to facilitate resolution through an informal means, if possible. The informal complaint procedure is provided as a less formal option for a student who believes s/he has been unlawfully harassed or retaliated against. This informal procedure is not required as a precursor to the filing of a formal complaint. The informal process is only available in those circumstances where the Complainant and the Respondent mutually agree to participate in it.

Students who believe that they have been unlawfully harassed may initiate their complaint through this informal complaint process, but are not required to do so. The informal process is only available in those circumstances where the parties (alleged target of harassment and alleged harasser(s)) agree to participate in the informal process.

The Complainant may proceed immediately to the formal complaint process and individuals who seek resolution through the informal procedure may request that the informal process be terminated at any time to move to the formal complaint process.

All complainants involving a District employee, any other adult member of the School District community, or a Third Party and a student will be formally investigated.

As an initial course of action, if a Complainant feels comfortable and safe in doing so, the individual should tell or otherwise inform the Respondent that the alleged harassing conduct is inappropriate and must stop. The Complainant should address the allegedly harassing conduct as soon after it occurs as possible. The Compliance Officers are available to support and counsel individuals when taking this initial step or to intervene on behalf of the Complainant if requested to do so. A Complainant who is uncomfortable or unwilling to directly approach the Respondent about the alleged inappropriate conduct may file an informal or a formal complaint. In addition, with regard to certain types of unlawful harassment, such as sexual harassment, the Compliance Officer may advise against the use of the informal complaint process.

A Complainant may make an informal complaint, either orally or in writing: 1) to a teacher, other employee, or building administrator in the school the student attends; 2) to the Superintendent or other District-level employee; and/or 3) directly to one of the Compliance Officers.

All informal complaints must be reported to one of the Compliance Officers who will either facilitate an informal resolution as described below, or appoint another individual to facilitate an informal resolution.

The Board's informal complaint procedure is designed to provide students who believe they are being unlawfully harassed with a range of options designed to bring about a resolution of their concerns. Depending upon the nature of the complaint and the wishes of the Complainant, informal resolution may involve, but not be limited to, one or more of the following:

- A. Advising the Complainant about how to communicate the unwelcome nature of the behavior to the Respondent.
- B. Distributing a copy of this policy as a reminder to the individuals in the school building or office where the Respondent works or attends.
- C. If both parties agree, the Compliance Officer may arrange and facilitate a meeting or mediation between the Complainant and the Respondent to work out a mutual resolution.

While there are no set time limits within which an informal complaint must be resolved, the Compliance Officer/designee is directed to attempt to resolve all informal complaints within fifteen (15) business days of receiving the informal complaint. If the Complainant is dissatisfied with the informal complaint process, the Complainant may proceed to file a formal complaint. And, as stated above, either party may request that the informal process be terminated at any time to move to the formal complaint process.

Formal Complaint Procedure

If a complaint is not resolved through the informal complaint process, if one of the parties has requested that the informal complaint process be terminated to move to the formal complaint process, or the Complainant, from the outset, elects to file a formal complaint, or the CO determines the allegations are not appropriate for resolution through the informal process, the formal complaint process shall be implemented.

The Complainant may file a formal complaint, either orally or in writing, with a teacher, principal, or other District employee at the student's school, the Compliance Officer, Superintendent, or another District official who works at another school or at the district level. Due to the sensitivity surrounding complaints of unlawful harassment, timelines are flexible for initiating the complaint process; however, individuals should make every effort to file a formal complaint within thirty (30) days after the conduct occurs while the facts are known and potential witnesses are available. If a Complainant informs a teacher, principal, or other District employee at the student's school, Superintendent, or other District official, either orally or in writing, about any complaint of harassment, that employee must report such information to the Compliance Officer within two (2) business days.

Throughout the course of the process, the Compliance Officer should keep the parties reasonably informed of the status of the investigation and the decision-making process.

All formal complaints must include the following information to the extent known: the identity of the Respondent; a detailed description of the facts upon which the complaint is based (i.e., when, where, and what occurred); a list of potential witnesses; and the resolution sought by the Complainant.

If the Complainant is unwilling or unable to provide a written statement including the information set forth above, the Compliance Officer shall ask for such details in an oral interview. Thereafter, the Compliance Officer will prepare a written summary of the oral interview, and the Complainant will be asked to verify the accuracy of the reported charge by signing the document.

Upon receiving a formal complaint, the Compliance Officer will consider whether any action should be taken in the investigatory phase to protect the Complainant from further harassment or retaliation, including, but not limited to, a change of work assignment or schedule for the Complainant and/or the Respondent. In making such a determination, the Compliance Officer should consult the Complainant to assess whether the individual agrees with the proposed action. If the Complainant is unwilling to consent

to the proposed change, the Compliance Officer may still take whatever actions deemed appropriate in consultation with the Superintendent.

Within two (2) business days of receiving the complaint, the Compliance Officer/designee will initiate a formal investigation to determine whether the Complainant has been subjected to offensive conduct/harassment/retaliation. The Principal will not conduct an investigation unless directed to do so by the Compliance Officer.

Simultaneously, the Compliance Officer will inform the Respondent that a formal complaint has been received. The Respondent will be informed about the nature of the allegations and provided with a copy of any relevant policies and/or administrative guidelines, including the Board's Anti-Harassment policy. The Respondent must also be informed of the opportunity to submit a written response to the complaint within five (5) business days.

Although certain cases may require additional time, the Compliance Officer/designee will attempt to complete an investigation into the allegations of harassment/retaliation within fifteen (15) business days of receiving the formal complaint. The investigation will include:

- A. interviews with the Complainant;
- B. interviews with the Respondent;
- C. interviews with any other witnesses who may reasonably be expected to have any information relevant to the allegations;
- D. consideration of any documentation or other information presented by the Complainant, Respondent, or any other witness that is reasonably believed to be relevant to the allegations.

At the conclusion of the investigation, the Compliance Officer or the designee shall prepare and deliver a written report to the Superintendent that summarizes the evidence gathered during the investigation and provides recommendations based on the evidence and the definition of unlawful harassment as provided in Board policy and State and Federal law as to whether the Complainant has been subjected to unlawful harassment. The Compliance Officer's recommendations must be based upon the totality of the circumstances, including the ages and maturity levels of those involved. In determining if discriminatory harassment or retaliation occurred, a preponderance of evidence standard will be used. The Compliance Officer may consult with the Board's legal counsel before finalizing the report to the Superintendent.

Absent extenuating circumstances, within ten (10) school days of receiving the report of the Compliance Officer/designee, the Superintendent must either issue a written decision regarding whether the complaint of harassment has been substantiated or request further investigation. A copy of the Superintendent's final decision will be delivered to both the Complainant and the Respondent.

If the Superintendent requests additional investigation, the Superintendent must specify the additional information that is to be gathered, and such additional investigation must be completed within ten (10) school days. At the conclusion of the additional investigation, the Superintendent shall issue a written decision as described above.

The decision of the Superintendent shall be final.

The Board reserves the right to investigate and resolve a complaint or report of unlawful harassment/retaliation regardless of whether the student alleging the unlawful harassment/retaliation

pursues the complaint. The Board also reserves the right to have the formal complaint investigation conducted by an external person in accordance with this policy or in such other manner as deemed appropriate by the Board or its designee.

The parties may be represented, at their own cost, at any of the above-described meetings/hearings.

The right of a person to a prompt and equitable resolution of the complaint shall not be impaired by the person's pursuit of other remedies such as the filing of a complaint with the Office for Civil Rights, the filing of charges with local law enforcement, or the filing of a civil action in court. Use of this internal complaint process is not a prerequisite to the pursuit of other remedies.

Privacy/Confidentiality

The District will employ all reasonable efforts to protect the rights of the Complainant, the Respondent, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, to take appropriate action, and to conform with any discovery or disclosure obligations. All records generated under the terms of this policy and related administrative guidelines shall be maintained as confidential to the extent permitted by law. Confidentiality, however, cannot be guaranteed. Additionally, the Respondent must be provided the Complainant's identity.

During the course of a formal investigation, the Compliance Officer/designee will instruct all members of the School District community and Third Parties who are interviewed about the importance of maintaining confidentiality. Any individual who is interviewed as part of a harassment investigation is expected not to disclose any information that is learned or provided during the course of the investigation.

Sanctions and Monitoring

The Board shall vigorously enforce its prohibitions against unlawful harassment/retaliation by taking appropriate action reasonably calculated to stop the harassment and prevent further such harassment. While observing the principles of due process, a violation of this policy may result in disciplinary action up to and including the discharge of an employee or the suspension/expulsion of a student. All disciplinary action will be taken in accordance with applicable State law and the terms of the relevant collective bargaining agreement(s). When imposing discipline, the Superintendent shall consider the totality of the circumstances involved in the matter, including the ages and maturity levels of those involved. In those cases where unlawful harassment is not substantiated, the Board may consider whether the alleged conduct nevertheless warrants discipline in accordance with other Board policies, consistent with the terms of the relevant collective bargaining agreement(s).

Where the Board becomes aware that a prior remedial action has been taken against a member of the School District community, all subsequent sanctions imposed by the Board and/or Superintendent shall be reasonably calculated to end such conduct, prevent its reoccurrence, and remedy its effects.

Retaliation

Retaliation against a person who makes a report or files a complaint alleging unlawful harassment/retaliation or participates as a witness in an investigation is prohibited. Neither the Board nor any other person may intimidate, threaten, coerce or interfere with any individual because the person opposed any act or practice made unlawful by any Federal or State civil rights law, or because that individual made a report, formal complaint testified, assisted or participated or refused to participate in any manner in an investigation, proceeding, or hearing under those laws and/or this policy, or because

that individual exercised, enjoyed, aided or encouraged any other person in the exercise or enjoyment of any right granted or protected by those laws and/or this policy.

Retaliation against a person from making a report of discrimination, filing a formal complaint, or participating in an investigation or meeting is a serious violation of this policy that can result in imposition of disciplinary sanction/consequences and/or other appropriate remedies.

Formal complaints alleging retaliation may be filed according to the internal complaint process set forth above.

The exercise of rights protected under the First Amendment of the United States Constitution does not constitute retaliation prohibited under this policy.

Allegations Constituting Criminal Conduct: Child Abuse/Sexual Misconduct

State law requires any school teacher or school employee who knows or suspects that a child with a disability under the age of twenty-one (21) or that a child under the age of eighteen (18) has suffered or faces a threat of suffering a physical or mental wound, disability or condition of a nature that reasonably indicates abuse or neglect of a child to immediately report that knowledge or suspicion to the county children's services agency. If, during the course of a harassment investigation, the Compliance Officer or a designee has reason to believe or suspect that the alleged conduct reasonably indicates abuse or neglect of the Complainant, a report of such knowledge must be made in accordance with State law and Board Policy.

State law defines certain contact between a teacher and a student as "sexual battery." If the Compliance Officer or a designee has reason to believe that the Complainant has been the victim of criminal conduct as defined in Ohio's Criminal Code, such knowledge should be immediately reported to local law enforcement.

Any reports made to a county children's services agency or to local law enforcement shall not terminate the Compliance Officer or a designee's obligation and responsibility to continue to investigate a complaint of harassment. While the Compliance Officer or a designee may work cooperatively with outside agencies to conduct concurrent investigations, in no event shall the harassment investigation be inhibited by the involvement of outside agencies without good cause after consultation with the Superintendent.

Allegations Involving Conduct Unbecoming the Teaching Profession/Suspension

The Superintendent will report to the Ohio Department of Education, on forms provided for that purpose, matters of misconduct on the part of licensed professional staff members convicted of sexual battery, and will, in accordance with Policy 8141, suspend such employee from all duties that concern or involve the care, custody, or control of a child during the pendency of any criminal action for which that person has been arrested, summoned and/or indicted in that regard.

Education and Training

In support of this Anti-Harassment Policy, the Board promotes preventative educational measures to create greater awareness of unlawful discriminatory practices. The Superintendent shall provide appropriate information to all members of the School District community related to the implementation of this policy and shall provide training for District students and staff where appropriate. All training, as well as all information, provided regarding the Board's policy and harassment in general, will be age and content appropriate.

Retention of Investigatory Records and Materials

The Compliance Officer(s) is responsible for overseeing retention of all records that must be maintained pursuant to this policy. All individuals charged with conducting investigations under this policy shall retain all documents, electronically stored information ("ESI"), and electronic media (as defined in Policy 8315) created and/or received as part of an investigation, which may include but not be limited to:

ATTENDANCE

Punctuality to class is a must. If you are tardy to class, it is your responsibility to sign in with the instructor, indicating the time you arrived. If you leave early from class, it is your responsibility to sign out with the instructor, indicating the time you left. Failure to sign in or out will result in a full day absence. Daily attendance during both semesters is encouraged for maximum student achievement. Absences can lead to deficiencies in satisfying minimum requirements of the course. Failure to meet these requirements will prevent a student from continuing in the program.

During clinicals, report absence to the nursing instructor at least **ONE** hour before assigned starting time. Each nursing instructor will provide you contact information in the event you will miss a clinical experience. If you are unable to reach your clinical instructor, please leave a phone message in the practical nursing office at [\(440\) 602-5094](tel:4406025094). Absences that are not reported at least **ONE** hour before assigned starting time will be considered a **NO CALL/NO SHOW**.

Each student in the practical nurse program should miss no more than a total of 25 hours per semester. Students who are not taking the full course load will have hours missed prorated at a rate of 5.6% of hours taken. For example, if a student is scheduled for 250 clock hours, they can miss no more than 14 hours ($250 \times .056 = 14$). Regardless of grade point average, a student will be dismissed from the practical nursing program once they exceed allowable hours of absence per semester. Regardless of grade point average, a student absent from a clinical day without proper notification (no call/no show) will be subject to disciplinary action, up to and including termination. Regardless of grade point average, a student absent more than 10 clinical hours will be subject to disciplinary action, up to and including termination.

GRADING AND EVALUATION POLICIES

1. A satisfactory level of achievement (“B” minimum) is expected of all students in each course and clinical. Students receiving less than satisfactory grades will be considered for dismissal.
2. Grading includes:
 - a. Compliance with the standards of the school and meeting the course objectives.
 - b. The attainment of skills in the performance of nursing care, and meeting the acceptable standards for safe patient care.
 - c. Meeting the acceptable standards of nursing ethics in regards to conduct, attitude, and professionalism.
 - d. Each course is graded independently and students must obtain a minimum of “B” in each course to progress through the program.
3. Grading System:
 - 90% - 100% = A (4.0)
 - 80% - 89% = B (3.0)
 - 70% - 79% = C (2.0)
 - 60% - 69% = D (1.0)
 - Below 59% = F (0.0)

GUIDANCE AND COUNSELING

Conferences are held between the instructor and student as soon as the student's grade average falls below a "B" in any subject. These conferences are to help the student examine various study strategies to improve grades. At this time, the student may be placed on probation.

The student may request a conference with the director of nursing or instructor as the need arises.

PROGRESSION & PERIODIC EVALUATION

First Semester

A **grade of a "B" or better** in all subjects is to be maintained. Grades below a "B" are considered unsatisfactory.

In the event a grade is lower than a "B" the student has the remaining semester time to bring that grade up to a **minimum of a "B"**. Grades are accumulative. In the event the final grade is below a "B" in any course the student will be dismissed from the practical nursing program.

To progress to the second semester of the program, a student must have at least a "B" in all first semester courses.

Second Semester

Grades are accumulative for each semester. A grade of a "B" or better is to be maintained in each subject.

Clinical evaluations will be received at the end of each rotation or unit of study or change of instructor. The clinical evaluation will reflect individual strengths and weaknesses. Clinical is a pass/fail course. A fail in clinical will necessitate dismissal from the practical nursing program. A student is not eligible to repeat the second semester if they fail any of the clinical rotations during the second semester. The main consideration is safe nursing practice.

Passage of a Capstone NCLEX Predictor Exam, as well as passage of all courses is required of all students prior to the school forwarding a letter of completion to the Board of Nursing.

Upon request, the director and instructors are available for discussion of student's progress.

REPEATING COURSES

A student who withdraws from or has a final grade below a "B" in a course is permitted to retake the course ONE time. If the student withdraws from or has a final grade below a "B" in the course a second time, the student will be withdrawn from the program and will be unable to re-enroll into the nursing program.

A student who is requesting to repeat a course(s) will be placed on a waiting list and notified when space is available. Students may be required to wait at least one semester before re-enrolling.

A student is unable to repeat clinicals if their final grade is a fail. A failure in a clinical will result in the student being withdrawn from the program and will be unable to re-enroll into the nursing program.

PROBATION

A probation period can be any length of time and can be initiated by nursing faculty at any time. A student may be put on probation for a variety of reasons, including but not limited to academics, attendance and conduct. A student is limited to two probation periods throughout the program.

Probationary status means that the student may be recommended for dismissal.

The faculty may remove a student from probationary status when the deficient criteria have been met.

WITHDRAWAL

All requests for withdrawal from the program must be stated in writing/email.

Pursuant to the Family and Medical Leave Act (FMLA), students may request in writing the need to place their education on hold while they tend to family or medical needs. All necessary forms for FMLA requests can be obtained in office. Students will be permitted to return to school to complete their requirements at the start of the following semester and must complete the semester in its entirety. If the student does not return the following semester, they will be withdrawn. Should the student want to return after they have been withdrawn, they must reapply for admittance.

GRIEVANCE AND APPEAL

GRIEVANCE

Purpose:

The grievance procedure provides nursing students with a process to resolve concerns or disagreements arising from their interactions with nursing faculty or staff.

Operating Principles:

1. A dispute or grievance is best resolved informally with an effort by each party involved to listen carefully and respectfully to the others.
2. All grievances will be handled in a confidential manner, with efforts made to ensure objectivity and fairness.
3. No student who goes through the grievance process will be subject to any reprisals as a result of such grievance.
4. If the grievance results from a dispute regarding a grade issued by an instructor, the burden will be on the student to prove that the instructor has made an error, or that the instructor has applied non-uniform standards in assigning the grade.
5. If the grievance results from a dispute regarding attendance, the burden will be on the student to prove that the instructor has made an error.

Procedure:

1. If a student has been unable to resolve a concern or disagreement with a nursing faculty member, the student/faculty member may request to meet with the involved faculty member/student and a trained mediator in an attempt to resolve the conflict.
2. If mediation is unsuccessful, the student and faculty member will meet with the Associate Director of Nursing or designee. The resolution prescribed by the Associate Director of Nursing or designee is final.

APPEAL

Purpose:

The appeal procedure provides nursing students with a process to appeal the interpretation or application of a policy or procedure affecting the student.

Operating Principles:

1. A dispute or appeal is best resolved informally with an effort by each party involved to listen carefully and respectfully to the others.
2. If the student wishes to appeal the matter after discussion with the person(s) involved in the incident, or with the person who made the decision that caused concern, he/she is entitled to do so.
3. All appeals will be handled in a confidential manner, with efforts made to ensure objectivity and fairness.
4. No student who appeals a decision will be subject to any reprisals as a result of such appeal.
5. If the appeal results from a dispute regarding a grade issued by an instructor, the burden will be on the student to prove that the instructor has made an error, or that the instructor has applied non-uniform standards in assigning the grade.
6. If the appeal results from a dispute regarding attendance, the burden will be on the student to prove that the instructor has made an error.
7. A student who has been dismissed may not attend class or clinical while pursuing the appeal.
8. Failure to follow the timelines prescribed in the appeal procedure will result in an automatic denial of appeal and forfeiture of future consideration.

Procedure:

1. If a student disagrees with a dismissal decision, the student may appeal the decision by completing the appeal form. The appeal form should be emailed to the Director of Nursing within one (1) school day of the decision to dismiss. The Director of Nursing may forward the appeal form to a designee if necessary.
2. The Director of Nursing or designee will review the appeal form and schedule a meeting with the student and all involved faculty. During the meeting the student will be given the opportunity to present evidence to show that they were not in violation of policy/policies to the Director of Nursing or designee.
3. The Director of Nursing or designee will issue a decision in writing either overturning or upholding the dismissal within one (1) school day of the meeting.
4. If the student is dissatisfied with the decision made by the Director of Nursing or designee, they can request in writing/email to meet with a faculty panel made up of Willoughby-Eastlake City Schools faculty members. The request should be made to the Director of Nursing or designee who overturned or upheld the dismissal. The request must be made in writing/email within one (1) school day of the written decision made by the Director of Nursing or designee.
5. A faculty panel made up of Willoughby Eastlake City Schools faculty members will meet with involved persons at a scheduled meeting within five (5) school days of the request. During the meeting the student will be given the opportunity to present evidence to show that they were not in violation of policy/policies to the faculty panel. The panel will also review all information related to the dismissal and have the opportunity to ask questions of the student and/or faculty if needed.
6. A designated member of the faculty panel will issue a decision in writing/email within one (1) school day of the meeting.
7. The decision of the faculty panel will be considered final and will terminate the process within the school.
8. After a student has completed the internal appeal procedure, the student may continue their appeal by contacting:

PROGRAM COMPLETION (Students who started the program PRIOR TO July 1, 2023)

Students who have satisfactorily completed the requirements of the course and met the school's objectives receive a diploma from the Willoughby-Eastlake School of Practical Nursing. It is important to note that the school does not license students. Students are licensed through the Ohio Board of Nursing. Completion of the program does not guarantee licensure.

Passage of a Capstone NCLEX-PN Predictor Exam is required of all students prior to the school forwarding a letter of completion to the Board of Nursing.

All tuition fees and school expenses must be paid in full before a student receives their final grades, a diploma and authorization to take the NCLEX-PN.

FUNDAMENTAL TEST & CAPSTONE NCLEX-PN PREDICTOR EXAM

The **ATI Fundamental Test and the ATI Comprehensive Predictor Exam** are exams used by nursing school personnel and nursing school students to predict success throughout the nursing courses and the NCLEX-PN. Your coursework has prepared you for both your NCLEX-PN and ATI exams.

ATI FUNDAMENTAL TEST

The **ATI Fundamental Test** identifies your knowledge of health assessments and foundations of practice, including communication and professional standards, patient evaluation of psychosocial needs, support of patient physiological needs and basic nursing care skills. This is a one-time test that is given at the end of the nursing fundamental course that includes a focus review for areas that are identified as weaknesses in content and skill.

ATI COMPREHENSIVE PREDICTOR EXAM

The **ATI Comprehensive Predictor Exam** is an accurate way to measure NCLEX-PN preparedness. The exam is a tool to help you identify strengths and weaknesses prior to taking the NCLEX-PN exam. Since the NCLEX tests specific areas of nursing information, the Comprehensive Predictor Exam identifies areas of weakness and provides study material.

The ATI Comprehensive Predictor Exam will provide you two practice NCLEX-PN exams which you may take 5 times each. These practice exams will help prepare you for the proctored Comprehensive Predictor Exam. After each practice exam you will receive an individualized Focused Review to assist you in identifying your areas of weakness as well as providing you with appropriate study materials.

Students are required to achieve a minimum of 70% on the ATI Comprehensive Predictor Exam before their Authorization to Test for NCLEX-PN will be submitted to the Board of Nursing. Consider this preparation toward your NCLEX-PN exam.

SCHEDULING TO TAKE THE PROCTORED PREDICTOR EXAM

The ability to schedule for the proctored exam will be at the discretion of the nursing faculty. The faculty's decision will be based on review of each student's practice exam and focus review. Students may be required to meet with a faculty member prior to scheduling to take the proctored exam.

PROGRAM COMPLETION (Students who started the program AFTER July 1, 2023)

Students who have satisfactorily completed the requirements of the course and met the school's objectives receive a diploma from the Willoughby-Eastlake School of Practical Nursing. It is important to note that the school does not license students. Students are licensed through the Ohio Board of Nursing. Completion of the program does not guarantee licensure.

Passage of a Capstone NCLEX-PN Predictor Exam is required of all students in order to pass Medical Surgical Nursing, Pharmacology and Obstetrical Nursing.

All tuition fees and school expenses must be paid in full before a student receives their final grades, a diploma and authorization to take the NCLEX-PN.

FUNDAMENTAL TEST & CAPSTONE NCLEX-PN PREDICTOR EXAM

The **ATI Fundamental Test and the ATI Comprehensive Predictor Exam** are exams used by nursing school personnel and nursing school students to predict success throughout the nursing courses and the NCLEX-PN. Your coursework and integrated ATI materials throughout the program have prepared you for both your NCLEX-PN and ATI exams.

ATI FUNDAMENTAL TEST

The **ATI Fundamental Test** identifies your knowledge of health assessments and foundations of practice, including communication and professional standards, patient evaluation of psychosocial needs, support of patient physiological needs and basic nursing care skills. This is a one-time test that is given at the end of the nursing fundamental course that includes a focus review for areas that are identified as weaknesses in content and skill. This test is part of the Nursing Fundamentals course final grade.

ATI COMPREHENSIVE PREDICTOR EXAM

The **ATI Comprehensive Predictor Exam** is an accurate way to measure NCLEX-PN preparedness. The exam is a tool to help you identify strengths and weaknesses prior to taking the NCLEX-PN exam. Since the NCLEX tests specific areas of nursing information, the Comprehensive Predictor Exam identifies areas of weakness and provides study material.

The ATI Comprehensive Predictor Exam will provide you two practice NCLEX-PN exams which you may take 5 times each. These practice exams will help prepare you for the proctored Comprehensive Predictor Exam. After each practice exam you will receive an individualized Focused Review to assist you in identifying your areas of weakness as well as providing you with appropriate study materials.

Students are required to achieve a minimum of 70% on the ATI Comprehensive Predictor Exam in order to pass Medical Surgical Nursing, Pharmacology and Obstetrical Nursing. Students will have three attempts to achieve at least 70%. When a student has achieved at least a 70% within three attempts and has a final grade of a "B" or higher in Medical Surgical Nursing, Pharmacology, Obstetrical Nursing and Intravenous Therapy a letter of completion will be sent to the Ohio Board of Nursing. After three unsuccessful attempts, the student will receive an overall grade of 0% F in Medical Surgical Nursing, Pharmacology and Obstetrical Nursing gradebooks, which will result in a course failure for all three courses.

SCHEDULING OF THE PROCTORED PREDICTOR EXAM

1st Attempt: Will take place the day after the last final exam is given.

2nd Attempt: Approximately 2 weeks following the 1st attempt.

3rd Attempt: Approximately 2 weeks following the 2nd attempt.

Students will be given the dates/times of the 2nd & 3rd attempts at least one month prior. Students will need to ensure they are available for the dates and times given or they will forfeit that attempt.

WILLOUGHBY-EASTLAKE SCHOOL OF PRACTICAL NURSING

CONCEPTUAL FRAMEWORK

The conceptual framework consists of three areas of focus based on Orem's Self-Care Theory. These areas will progressively provide knowledge beginning with the overall needs of all persons at various stages of development followed by the needs of those persons with health deviations.

Included throughout the course will be the concepts of nursing process, health concepts, communications, ethics, nursing skills, and safety.

Universal Self Care: Introduces the beginning student to the basic function and needs of the individual

Requisites: During this phase of the course, the student will acquire the foundation skills to permit them to deliver appropriate care.

Developmental Self: Focus upon human developmental processes and conditions and events that occur during various stages of the life cycle, as well as with events that may adversely affect development.

Care Requisites: This phase of the course will enable the student to identify developmental deficits of a person and incorporate the skills and knowledge learned in the previous phase in order to provide nursing care agency.

Health Deviation Self Care Requisites: During this final phase of curriculum, the student will identify basic universal, developmental, and health deviation, self-care deficits and apply the nursing process to provide nursing care agency.
